

Society For Empowerment

GLOBAL ONLINE TRAINING PROGRAMME

14-09-2021 to 28-09-2021

6:00 PM to 7:30 PM

About the Organisation

Society For Empowerment (SFE), a registered Non-Government Organization based at Patna, with focus on Research, Training and Teaching, is working for the holistic development of the people in general, women, and children and deprive section of the society. On behalf of all fellow humans envisaged to promote the philosophy and preaching of Mahatma Gandhi in alleviating the suffering of common mass arising due to indiscriminate development.

Our Society has firm faith in the ideology of Mahatma Gandhi and we believe that in the present era of turmoil in Global Geopolitics, erratic climatic changes and global pandemics, the role and relevance of Philosophy of Gandhi is the Panacea for all struggles of human race. Mahatma Gandhi said, "If we have no charity, and no tolerance, we shall never settle our differences amicably and must therefore always submit to the arbitration of a third party." Many of today's conflict management techniques and resolution process have a clear shadow of what and how Gandhi had seen local, national and inter-national issues in his times.

"There is no path to peace; peace is the path".

- Mahatma Gandhi

To promote the Gandhian philosophy, the society has introduced online training programs on contemporary issues, wherein the Gandhian approach and methodology has been prophesied to address them.

Society For Empowerment at this point of time is running following online Gandhian certificate training programs:

- *International Training Programme on Disaster Management and Mahatma Gandhi*
- *Pollution , Public Health and Mahatma Gandhi*
- *Water Audit and conservation in Industries*

All the programs has been designed not only to sensitize, the present generation about the Gandhian values but also how Gandhian ideology can bring solution to even complex social, economic, technological and scientific problems.

The programs have been blessed by Honourable Dr. Arun Gandhi, Grandson of Mahatma Gandhi and Shri. Tushar Gandhi, Great Grandson of Mahatma Gandhi who have taken valedictory sessions for the students participating in the above certificate training Programme.

Dr. Arun Gandhi
(Grandson of Mahatma Gandhi)

Mahatma Gandhi insisted that with Respect, Understanding, Acceptance, Appreciation and Compassion, all core values for any peaceful relationship, we can resolve conflicts in a nonviolent way. Teaching the practice of Ahimsa or Nonviolence in our daily lives will open paths towards harmony, inner peace and protection of our environment.

Shri Tushar Gandhi
(Great Grandson of Mahatma Gandhi)

World peace can be attained with only truth and not into the truth which is convenient to us or which is not convenient to us. Bapu talked about the eternal truth, the truth of life, the truth which remains constant and does not change with time.

The major topics discussed under the certificate programs are as under:

- *Gandhi and Happiness*
- *Gandhi and Conflict Management*
- *Health Crisis Management and Mahatma Gandhi*
- *Environments and Climate Change in Mahatma Gandhi perspective*
- *Water audit, waste water recycling, advanced water and waste water technology*
- *Disaster Management and Mahatma Gandhi*
- *Analyzing, Communicating, Environmental Health crisis Management and Pandemics in Mahatma Gandhi perspective*
- *Data Visualization: Learn to visualize and effectively communicate, digitalization of data and Mahatma Gandhi*

Pollution, Public Health and Gandhi

Course Contents

- Data Collection, learn how and where to research.
- Data analysis: develop skills to analyze and interpret the data.
- Data visualization: learn to visualize data for effective communication

Course Contents

- Disaster Management
- Disaster Management in Social Science
- Natural Sciences and Medical Science
- Engineering
- Administration
- Common Man
- Futuristic Perspective
- Act, Law, Disaster Sufferers
- Vision for Disaster Management

Water Audit and Conservation in Industries

Increasing industrial production specially in water industries like thermal power plants, pulp and paper, textiles, fertilizers etc. is already pulling on the limited fresh water resources in India and world-wide. This is coupled with increased water demand from other sectors like infrastructural development, agriculture, domestic etc., which is leading to major conflicts over water availability. Sourcing water and managing waste water is becoming increasingly difficult and expensive and hence is an important aspect of sustainability of any industries which are heavily dependent on water for their production of these due to scarcity of water mainly during summer season. Such scenario has become much frequent in the past few years due to increasing stress. Therefore it is very critical for industries to use water judiciously and reduce the water footprint as much as possible in order to be sustainable in future.

Water use optimization, improving water accounting systems, identifying water losses and opportunities for water savings can serve as an effective approach for reducing water consumption. Also efficient waste water treatment technologies and recycling and reuse practices can further bring down consumption and efficient generation. Further, substantial costs which are associated with water and wastewater management like water sourcing, cost of pumping, cost of water treatment (chemicals), cost of efficient treatment and disposal etc., can be effectively reduced through better water and wastewater management and through periodical conduction of water audit.

In this background, understanding the relevance of the subject, Society for Empowerment (SFE) has developed a 2 week online course with the aim of providing a wider understanding on the above aspects of water audit, wastewater management and recycling.

The courses will be conducted online through technological learning tools such as presentations, videos, discussion with experts and other audio and reading materials. Upon completion of course participants will receive E certificate of Completion.

WORKSHOP STRUCTURE

The Workshop is for Two weeks in duration, Online classes between 6:00 PM to 7:30 PM
Certificate of Participation will be given after successful completion of the Program.
Participants will have the opportunity to discuss with experts.

Who Can Enrol

This Workshop is for any Graduates those who are interested in Environment and Gandhi, Professionals, EHS Officials, Environmental Consultants, Environmental Engineers, Environmental Regulators, Environmental Laboratories, Academic Institutions and others aspiring to work in Water Audit, and Water Waste Management Field.

Fee and Registration

Register through the Google Form provided in the link. Fill in the details of the fee in the form to complete the registration.
